

## DESCRIPTION

---

- ARISTA is a new modern decorative coating for interiors. It has the prismatic effect that changes tone according to the angle from which it is seen, giving a sleek glow to the wall surface.

## SPECIFICATION

---

- ARISTA creates different effects under light or shadow.
- The product has a low odour level, is non flammable and is friendly both to humans and the environment.
- ARISTA is highly washable
- ARISTA can be applied to all kinds of plaster surfaces, as well as wood panels, as long as they are treated with appropriate primers.

## APPLICATION INSTRUCTIONS

---

- Ensure that the surface is clean, dry and free from peeling paint or any substance that may compromise adhesion.
- Prime the surface using the specific decorative primer Sandeco Decoprimer.
- Using a varnish brush, apply two coats of Sandeco Decoprimer with %10-%20 of water and let them dry for 4 hours before applying ARISTA
- Over the dry and previously painted surface, apply ARISTA by brush or lambskin roller then using a rag stippler, immediately dab the wet product randomly
- Verify spread rates and surface area to be coated to avoid running short of product during the working process and reducing the risk of differences in tones.
- Make sure that both the ambient temperature and the substrate temperature are between +5°C and +35°C

**Drying Time** : Dry-to-touch, 1-2 hours / In depth, 24 Hours (recorded at 23°C)

**Packaging sizes**: 1Lt, 2,5Lt, 7,5 Lt

**Coverage** : Depending on porosity of surface and environmental conditions, 4-5 Lt/ m<sup>2</sup> - One coat

**Flash Point**: Non-flammable.

**Storage**: 1 year, unopened in cool frost-free conditions

**Warning**: Keep out of the reach of children. Avoid contact with skin and eyes.
